

# Colecta

Sentiment to sales

**FEEDBACK ENGINE**

  
easyrewardz™

**86% buyers**

are willing to pay more for a great customer experience

*Temkin Group*

Your customers are paying not just for your product but a  
***truly satisfying shopping experience!***

# What Could Happen When You Don't Capture Customer Sentiments

**User Frustration & Customer Churn  
Due to Bad Experiences**

**Negative PR on Public Platforms  
Due to Lack of Brand Outreach**

**No Mechanism for Customers to Flag Product  
Defects & Provide Product Innovation Ideas**

**No improvement Areas for Customer  
Service Due to Lack of Feedback**

**Lack Of Research Surveys To Understand  
Changing Customer Trends/Preferences**

**Loss of Loyalty & Advocacy Due to  
Lack Of Happy And Loyal Customers**

# Understanding the Voice of Customer

Hi, wouldn't it be great if you could know what your customers want?

**Absolutely!**  
I just wish we could talk to them directly.

What if we could!

What!  
How do we do that?

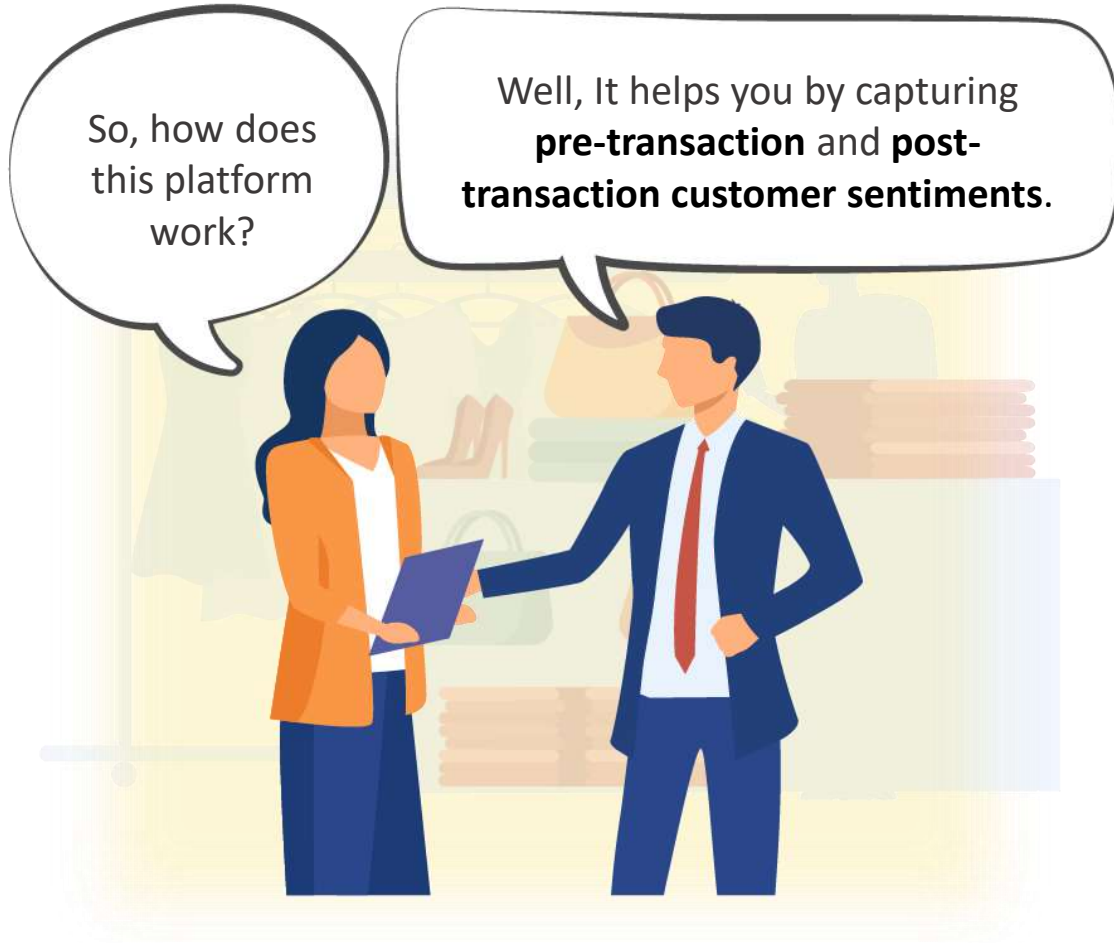

## Introducing Collecta (1/2)

### Collecta is a Feedback Engine that lets you:

- Capture voice of customer
- Gain actionable customer insight
- Run a customer-centric business
- Build real customer connect

## Introducing Collecta (2/2)

Give your business an edge by understanding how your customers view your brand

### Contextual Probing

Use Customer Data Platform based customer personas to create contextual questions

### Incentivize Customers for Feedback

Instantly reward your customers for providing feedback and make them feel valued

### Rich Questionnaire Form on the Run

Pick pre-existing design templates and questions from our shared library

### Detractor Flow Management

Capture and analyse negative feedback from your customers

**52% customers**

Want quick response and action on their feedback

*Microsoft*

It takes humility to seek feedback, it takes wisdom to understand it, analyze it, and act on it

***but it only takes Collecta to do it all!***

# A Simple Plug-n-Play Tool That Does It All

The first touchpoint is  
**DESIGN**

- Load questionnaires from pre-defined templates
- Create conditional flows and logical jumps between questions
- Choose from NPS, MCQ, Rating and Text question types
- Apply rich audience-selection filters available of type enrolled store, segment and more
- HTML editor, custom themes with logo & color change available

## COLLECTA: FEATURES & CAPABILITIES (2/4)

- Administer feedback as a Campaign
- Send links for Collecta forms via SMS/Email
- Collect feedback in-store using custom forms
- Integrated with Digital Receipts
- Custom invocation by any other application like Point of Sales, Property Management System

Then comes  
**DELIVER**

The third is  
**COLLECT**

- Capture your customer's overall "delight" with your brand via Customer Delight Index
- Enrich your customer data and update their profile via Collecta
- Enhance single view of the customer
- Analyze the performance of each feedback campaign with dashboard support

## COLLECTA: FEATURES & CAPABILITIES (4/4)

- Custom invocation by any other application like Point of Sales and Property Management System
- Provide multiple choice of rewards: Points, Gift Vouchers, Coupons
- Negative feedback can be logged in as tickets
- Detractors close looping for escalations
- Alert staff/other internal Stakeholders on negative rating

And finally,  
**ACT**
